## Stommel Haus UK of Neunkirchen-Seelscheid receives Best of Houzz Awards 2020 for Design and Service

***Houzz-Community of over 40 million users per month from all over the world rated top professionals in the world of architecture and interior design.***

Neunkirchen-Seelscheid, Germany, February 12<sup>th</sup> 2020 – Stommel Haus UK has been awarded the „Best Of Houzz Design“ Award as well as the “Best of Houzz Service” Award by the leading platform for Home Remodelling and Design. **Stommel Haus UK** was chosen from over 2.5 million active experts in the area of interior design, design and architecture by the Houzz community.

Stommel Haus, Premium German supplier of bespoke eco timber houses was selected by millions of home owners of the Houzz-Community from 2.5 million active experts in the fields of design, architecture and renovation.

The Best Of Houzz is awarded annually in three categories: Design, Customer Service and Photography. The work of the winners of the award “Best of Houzz – Design” is the most favourite amongst the Houzz community. The award “Best of Houzz – Service” is awarded for customer satisfaction based on various criteria such as number and quality of the customer ratings received by the winner.

A “Best Of Houzz 2020” badge appears on winners’ profiles, as a symbol of their commitment to excellence. These badges help homeowners identify popular and top-rated home professionals in different locations on Houzz.

Barbara Fischer-Clark, sales agent for Stommel Haus in the UK says: *„We are proud to announce that we have been awarded with the „Best of Houzz“ Awards 2020” which is a great and welcome recognition for our continuous striving for excellence. While celebrating 50 years of Stommel Haus in 2019, we continue to develop the product to build truly bespoke, energy efficient and healthy eco homes. We introduced jute insulation to further manifest our commitment for sustainability.*

*It is so very satisfying to design and build a sustainable bespoke home starting from a thorough requirement briefing to manufacturing, delivering, building and kitting out a high quality home*

*sometimes more than a thousand kilometres from the factory – a both challenging and rewarding exercise. It is great to see that not only our clients give us excellent feedback but that millions of Houzz users love our work too.*

*Houzz is increasingly important for our clients to express what they are looking for in their personal idea books and for ourselves to demonstrate what we are capable of. We will carry the “Best of Houzz” award badges with pride.”*

*"This year's Best Of Houzz Awards go to an incredibly talented and service-oriented group of renovation and home design experts. We are proud to highlight the winners on the Houzz website and app," says Thomas Volpi, Managing Director for Houzz Germany. "This award is particularly significant because it reflects the sentiments of millions of property owners in the Houzz community who hire experts for their projects in Europe and around the world."*

### **About Stommel Haus**

Stommel Haus is a premium manufacturer of contemporary bespoke

energy efficient timber houses. With 50 years of experience, the family business proves that with solid timber from certified forests in Europe, sustainable, high quality and very energy efficient houses can be built to almost any design. Nestled in the small town of Neunkirchen-Seelscheid near Cologne, Stommel Haus develops and produces their certified timber houses with high precision CNC machines. The houses are transported on site where they are erected by qualified teams and made wind and water tight typically within 5-7 days. State-of-the art heat pumps and under-floor heating on all storeys are installed. Interior fittings from the best brands are used by qualified German craftsmen to provide the turnkey-finished house.

**Stommel Haus**   
Ein Haus wie ein Baum.

Since the beginning the Stommel family embraced this wonderful material, building timber houses with an emphasis on ecological and energy efficient building not only enforced by the hard requirements of German energy saving regulations but by the enthusiasm for the natural and sustainable material wood used for the benefit of the wellbeing of home owners.
